MEMORANDUM FOR: Deputy Director (Support)

SUBJECT : Internal Reorganization of TSD/R & D

1. This memorandum contains a recommendation for your approval in paragraph 5.

2. The Chief, Technical Services Division has submitted a proposal (TAB I) to reorganize the Research and Development components. The proposal provides for increased emphasis on research by separating this responsibility from work in support of the agents. Two new Branches are established; one with responsibility for basic research; and the other with responsibility for development of sophisticated long-range intelligence collection systems. Work in support of the agents will be continued in the three presently established Branches for [redacted] 25X1A8a

3. The Division's authorized strength is now [redacted] positions with [redacted] allocated to R & D; an increase of 17 for R & D. The additional ceiling for R & D was provided by the transfer of seven positions from the DCI, and five positions from DD/P, with the remainder made up by internal TSD adjustments. 25X9A2 25X9A2

4. The Office of Personnel has reviewed the proposal and approves the position titles and grades subject to the exceptions noted in their memorandum (Tab II). The SSA-DD/S reports that the average grade will be increased from approximately 11.2 to 11.4. The Comptroller states that there is no objection to the proposed reorganization, as the increased cost can be absorbed by TSD or provided within the total funds budgeted for Fiscal Year 1962. (TAB III)

5. We recommend your approval of the proposal as requested in TAB I, and as amended in TAB II.
